

# Class V: Introduction to Aerospace Engineering

M. G. Bharath and M. Ramakrishna,  
Department of Aerospace Engineering,  
Indian Institute of Technology Madras

October 8, 2020

# Flat Plate

# Cambered Plate

# Symmetric Airfoil

# Control Surface Down - Wing Up

# Control Surface Up - Wing Down

# Primary Controls

Ailerons - Roll about  $x$

Elevators - Pitch about  $y$

$y > 0$  - Starboard,  $y < 0$  - Port

$x > 0$  - Forward,  $x < 0$  - Aft

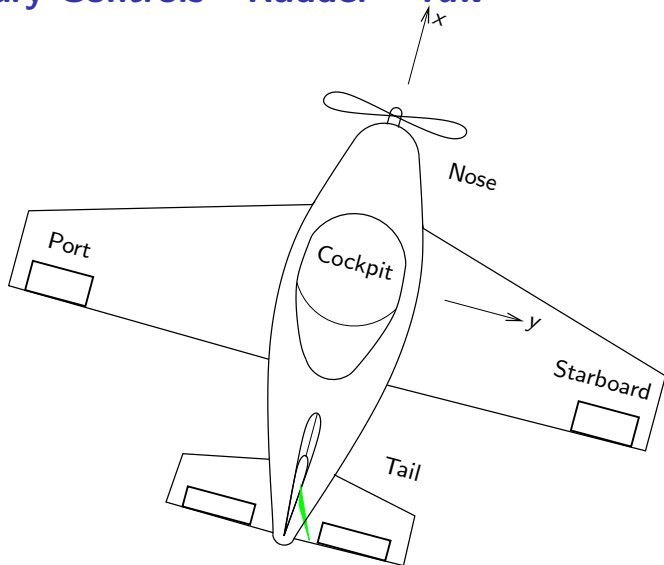

# Primary Controls

Rudder - Yaw about  $z$

# Primary Controls - Rudder - Yaw

Rudder - Yaw about  $z$

# Primary Controls - Elevator - Pitch

Elevator - Pitch about  $y$

# Primary Controls - Aileron - Roll

Ailerons are Differential Actuators i.e both move in different direction.

Once you move the Aileron, Rolling starts. To stop the roll, we need to provide a counter movement to bring the plane to rest

Aileron - Roll about x
